Announcement from the Rector’s Office

Necessary actions were taken with regards to the judicial authorities regarding the people who were not students of Hacettepe University and tried to enter the campus carrying sharp objects following the incidents at Beytepe Campus last week. Moreover, a disciplinary proceeding was initiated regarding the students determined to be involved in the incidents. However, in accordance with the current student discipline regulations, it is not possible to impose sanctions or take measures regarding the students involved in the incidents unless the proceedings are finalized.

We hope that you will show consideration for the intense traffic due to the increased security measures at the A and B entrances of Beytepe Campus. Moreover, there have been meeting requests from several departments regarding the recent incidents. It will not be allowed to make any meetings, protests or marches within the campuses for a certain period of time in order to not increase the tension once more and to enable a safe education environment.

Regards.

Rector
